CSE7302 - INTERNSHIP

Review-1 Presentation

A Unit of Test Yantra Software Solutions Internship(Robowaves)

Student Details	
Name	THANUSH G GOWDA
Roll No	20221COM0088
Section	8COM-01

Under the Supervision of,

Dr. Murali Parameswaran
Associate Professor
Presidency School of CSE
Presidency University

Name of the Program: **B.Tech in Computer Engineering(AIML)**
Name of the HoD: **Dr. Gopal Krishna Shyam**
Name of the Program Internship Coordinator: **Mr. Sreehari T M**
Name of the School Internship Coordinator: **Dr. Md Ziaur Rahman**

About A Unit of Test Yantra Software Solutions(Robowaves)

- Test Yantra specializes in **software testing and quality assurance services.**
- **Founder:** Mr. Girish Ramanna, Founder & CEO
- Founded in 2007, Headquartered in Bengaluru
- **Robowaves**, a unit of **Test Yantra Software Solutions**, is an IT services company that works in software development, web technologies, and software testing.
- The company provides services such as **web application development, software testing, automation, and quality assurance** for different industries.
- Robowaves offers **internship and training programs** where students gain practical knowledge by working on **real-time projects**, especially in **web technologies**.

HR Policies of Test Yantra Software Solutions

- Leave & Time Off
- Work Hours & Attendance
- Insurance & Benefits
- Career Growth & Training

Working domain or the technology

- **Core Focus:** Web Technology
- **Role:** Frontend Developer
- **Key Skills Taught:**
  - HTML
  - CSS
  - JavaScript
  - Bootstrap
  - Reactjs

About my team and mentor

- I work with a **supportive technical team** where members collaborate and share knowledge during the internship.
- The team helps me understand **web technologies** and guides me in completing assigned tasks and projects.
- My mentor is **Mr. Pradeep Aldur**
- My internship guide is Mr. Govindraj Sir, provides continuous guidance, technical support, and motivation throughout the internship.

Challenges Faced in Internship

- Understanding **new web technologies and tools** was challenging at the beginning.
- Managing **time between learning concepts and completing tasks** required proper planning.
- Debugging errors and implementing **real-time project requirements** needed patience and continuous practice.

Objectives of the work

- To gain practical knowledge in web technologies.
- To understand how real software companies work
- To apply classroom knowledge in real projects
- To improve technical and communication skills

Internship Road Map

Note: Write in the below table what u will be achieving in each review

Review 1	Review 2	Review 3	Review 4	Final Review
Basics of web technology and understanding project requirement	Frontend development practice and initial project implementation	Advanced features, debugging, and performance improvement	Project refinement, testing, and documentation	Project submission, evalution, and feedback
